Tonny, Kans., Aug. 24, 1885: ED. JOURNAL-A Woman Suffrage Society was organized by Mrs. Helen M. Gouger in June last at the Liberty church, with the following officers: Mrs. Wm. Sbirnt, President; Mrs. M. E. Wait, Vice President; Mrs. E. Willis, Secretary; Mrs. E. A. Lloyd, Trensure. The Society has been steadily increasing lu numbers and interest ever sines. The object of the organization is to foster and strengthen the centiment of the people in favor of "Universal Suffrage," or liber ty and protection to all, regardless of tion and Bronchitis now on the markcolor or sex.

The meeting had Friday evening was of more than usual interest. The singing was excellent and appropriate, with Mrs. Wm. Shirar as organint. Essays were rend by Mrs. E. Willis and Mrs. E. A. Lloyd, Then follows a spirited discussion of the question, "Is it right to encourage people's favorite rensedy, wherever woman suffrage ?" The discussion little speech followed by Mr. S. Batdorf, who has been a suffragist ever since he was old enough to give the matter serious thought. Other enthusiastic speeches were made by Chas and Wm. Shirar and Mr. Geo. Bull. The Society will meet argain evening. All are invited to attend. Music and literary exercises will ocfor discussion-"Does history provethat woman is capable of self-govern ment?" will be 'one of unusual inter

DEAR MRS. JOHNS :- In the Jour-NAL of Aug. 27, appeared a letter from a remonstrant, which, but for the general air of righteous sincerity pervading it, an ordinary reader would take it for the production of some indorser of woman suffrage, whose mind had taken an ironical turn. We fear, however, that the writer's intentions were far from bewould be much pleasanter to labor under that hallucination than to know that a woman of the 19th century should drag out of the dark ages a their prime long before our grandfathers saw the light of day, for the purpose of retarding her own sex. She is fiving just a century too late. We admit, that so far as mere brute strength goes, we are the weaker sex, but that fact does not argue mental acknowledged peer of animals be cause of its superior size and strength. In truth, many of the weaker animals, knowing their physical inferiority. resort to strategy, and thus as advasaries are much more to be feared.

Of course every wife and mother should not neglect her household duties, but when we dispose of our the large number of women who are of an inferior business education and teachers, operators and professional wonien to-day, we would have nothing but a chaos of servant girls and seamstremes. Of course "the sterner sex should battle with the world" but there are many who have none of "the sterner sea" to buttle for them, and, be it said to their shame there are more than a few women who have warriors who persistently to gird on their armor and fight, but condescendingly hand their preroga-tive over to the "weaker sex." The cooking stove and dusting brush are very essential to combit, and every woman should know how

to wield them, for if the "sterner sex" is to furnish brains for the whole family, there are intricacies in these articles of hotsehold furniture that are beyond his ken; yet shut a child ten years of age, up in their "refluing at-mosphere" for ten years with noth-ing to do but to learn to handle there, and at the end of that time, how much refinement is there, and how can she compete with the average college graduate, even one exposed to the "immorality of co-education?" Granted that our college-bred girl knows little of the "refining cooking stove" str., is her education any bar

to her learning these things if the oc-casion requires? A truly refined and educated woman invariably makes a good housekeeper, but this does not prove that to be refined one only seeds the cooking stove and dusting

As to the husband coming bom from the office and matend of a warm dinner fluds the wife at a political meeting, we should like to ask the writer if it is absolutely necessary for a political meeting to be held at meat ime, and if at any time within her recollection she recalls any of the "sterner sex making an appointment, political or otherwise, which was likely to interfere with a "warm din-

mer or supper?" We doubt it.

We are truly sorry for the correspondent's peace of mind that she did not live in St. Paul's time, for she would have been decidedly in her element. As it is she can but feel a little out of date advancing such mark theories. From observation we rusty theories. From observation we can say that if a woman settles down to "learn of her husband at home," be will find it very slow work. The husband of the period, we are happy to say, looks beyond the drudgery of the hitchen to the intellect, and the number of men who marry to secure a housekeeper wise will work for her board and clothes, is growing smalles by degrees. To be a good wife means to be a companion and an equal.

We will anticipate the charge which is usually brought forward of being a maiden lady of uncertain age.

The Salina Woman Suffrage Assoclation will meet on Sep. 14th, at 7:30 P. M., at the residence of Mrs. C. T. Day, west side of from avenue. At this meeting the association will begin the study of the constitution of Kansas. All those wishing to become members of the class, are cordially invited to attend.

The annual meeting of the Kanson Woman Suffrage Association is to be held in Salina and is announced for the last week in October. A Volce from R. I

For twenty years I have been afflicted with a dreadful bloud poison, and during all those years I have had the best medical advice in the country the physicians prescribing the only remedies known, such as Mercury and Iodine of Potamium, all to no purpose. I was six months in Baltevue Hospital, and became so had that I despaired of getting well. I then, ing meastle at the time, although it through advice, went to Europe to try some of the best physicians there with the same results, and I returned again to this country. Finally 1 went to New Orleans. being told that lot of old musty ideas which were in the French doctors understood the treatment of my case better, and perhaps could cure me. Alas, however, after taking more mercury and potassium from them, I became so much wome that I gave up to die. So bad had I become that I was a sight to behold, I had large ulcers all over my weakness. The elephant is not the body and face. There were holes in my legs that you could put a hen's egg in, clear down to the bone. A number of pieces of bone came out at my ankle, and now I carry the mare on my face and body of the frightful character of this disease. I then came back to Providence, and by chance got hold of a paper with Swift's Specific in it of a wonderful cure. As a last houseksepers, what are we to do with hope I thought I would try it. Thanks be to God, I can say torday thrown on their own resources with that I am perfectly cured, having no natural protectors? It is because taken medicine about three months Up to the present date, no symptoms lack of something whereby to earn an of the disease have returned, and I housest living, that a large number of feet as well as before I was poisoned. innocent girls are yearly led astray I have nothing but two scars to show and become lost in the vicious haunts that I was ever afflicted. I consider of our cities. If the mothers of the S. S.
